

Executive Notes

Your Provincial Executive Council met on February 17th and 18th in St. John's and Joint Council (Branch Presidents and Executive) met on the evening of February 18th and all day on the 19th. This issue of Executive Notes is designed to provide you with a summary of major decisions and discussions occurring at these meetings. For further information please contact any member of Provincial Executive or the NLTA staff person as indicated.

Collective Bargaining

The Collective Bargaining Committee has been collecting information from teachers re. issues and concerns for consideration during the development of the opening proposals. To date, over 1,000 submissions have been received and five areas have evolved as the main concerns for teachers. They are: salaries; workload; class size; pensions and pension indexing; and employment of teachers.

At this Joint Council meeting Branch Presidents spent a great deal of time prioritizing issues of importance re. collective bargaining. The issues will be forwarded to the committee for review.

The Collective Bargaining Committee strongly encourages all teachers who have not already done so, to complete and forward a "Collective Bargaining Submission Form" as soon as possible.

The following motions have been forwarded to the Collective Bargaining Committee for review and/or recommendation:

- The Collective Bargaining Committee will explore the possibilities of developing a "bargaining unit work" clause for inclusion in the next opening package.
- The rate of pay for emergency supply teachers will be brought to the Collective Bargaining Committee for the next round of negotiations.
- The Collective Bargaining Committee will review the suggestion/motion that Article 9 of the Provincial Collective Agreement be modified such that once a teacher who is in the layoff pool is offered a position that they are capable of filling and they reject, that teacher loses the right to recall. That teacher will then be offered a position subject to their seniority and qualifications.

Labrador Benefits Agreement

All six public sector unions voted in favour of accepting the proposed Labrador Benefits Agreement. As a result, the Agreement was formally signed at the Collective Bargaining Division of Treasury Board on February 9, 2000.

Treasury Board is now in the process of notifying the individual employers in Labrador of the ratification of the Agreement. The Labrador School Board will then be putting in place necessary payroll adjustments to incorporate increased levels of the Labrador and travel benefits.

Educational Sector Analysis Proposal

Provincial Executive was asked to take part in focus group sessions as part of a study being carried out by Dr. Bruce Sheppard, Dr. Henry Schultz, and Dr. David Dibbon from the Faculty of Education, Memorial University. The study concerns the supply and demand of teachers in the province and is being conducted in two distinct phases. The first phase is the sector analysis, while the second will focus on sharing the results and using them to plan for the future. The findings are expected to be of interest to a variety of audiences including practicing and prospective educators, teacher organizations, governments and policy makers, and teacher training institutions.
