## **Pathways to Programming and Graduation**

An update was provided to Provincial Executive by René Wicks, Administrative Officer in the Professional Development Division, on all NLTA activities concerning Pathways. This presentation involved a chronology of events from 1998 to present, including the NLTA's response to Supporting Learning – The Report of the Ministerial Panel on Educational Delivery in the Classroom, the teacher survey response to implementation of Pathways, legal opinions and options on Pathways, updates on the Pathways Working Group, various memos from the NLTA President and staff members on the issue, and a brochure for parents printed by the NLTA.

In December, NLTA became aware of a legal opinion to the Newfoundland and Labrador School Boards Association regarding teachers affixing disclaimers to ISSP documents. The school boards have been advised to prohibit teachers from affixing such disclaimers to the ISSP documents, and boards have given this directive to teachers.

The NLTA has filed a policy grievance with the NLSBA on this issue to protect the rights of teachers. The grievance will allow the opportunity to explore the liability issue and to determine what level of liability the NLSBA and its member school boards are willing to accept on behalf of

teachers.

A meeting was held on January 15 with NLSBA and Department of Education officials to discuss this issue. If directed by the employer to stop placing disclaimers on ISSP documents, teachers are advised to follow the directive. Teachers will be kept informed of this issue as the grievance process unfolds further. The NLTA will communicate with school administrators regarding their role in reviewing and determining the contents of ISSPs.

Early career teachers and their involvement with the Association has been made a priority.
